### CONGRESSIONAL PROCEEDINGS.

Canadian Reciprocity Dis-  
cussed at Length.

A Rough Trip Experienced on  
the Atlantic.

### Congressional Affairs.

WASHINGTON, Jan. 24.—S. J. Ritchie  
of Ohio appeared before the Ways and  
Means Committee and argued in favor  
of the free importation of Canadian  
mineral ores and in favor of unre-  
stricted reciprocity with that Dominion.

The Chairman, having ascertained  
that Mr. Ritchie was conversant with  
Canadian matters, inquired what the  
sentiment was in Canada in regard to  
annexation. Mr. Ritchie replied that  
any sentiment could be found in Can-  
ada which anybody wished to fish for.  
There was a considerable reciprocity,  
and by taking a proper course the  
United States could increase the senti-  
ment.

Payne asked as to the feeling to-  
wards the Butterworth reciprocity bill.  
Mr. Ritchie replied that the Opposition  
in the Canadian Parliament, number-  
ing about one-third of its membership,  
had adopted the Butterworth bill as its  
platform.

In reply to a question by Carlisle,  
Mr. Ritchie stated that American in-  
terests in Canada were very large.

Carlisle asked whether Canada  
would give the United States free coal  
if the United States gave her free iron.  
Mr. Ritchie replied emphatically in  
the affirmative.

Butterworth of Ohio addressed the  
committee in support of his bill for re-  
ciprocity with Canada.

On motion of Grosvenor of Ohio the  
House insisted on its amendment to  
the Senate bill for the removal of ob-  
structions from the Missouri river, and  
a conference was ordered.

The House then went into Commit-  
tee of the Whole, Burrows of Michigan  
in the chair, for the further considera-  
tion of the customs administrative bill.

A Rough Ocean Trip.  
By Cable and Associated Press.]

LONDON, Jan. 24.—The British  
steamer Sardinia, Captain Richardson,  
from Portland January 9th, arrived at  
Liverpool last night. She reports very  
heavy weather. On January 16th an  
alarm of fire was caused by the burst-  
ing of a steam gauge; meantime a fun-  
nel was smashed and the fire was  
smothered by water pouring down on  
them. Two men were killed and a  
third so badly injured that he subse-  
quently died. Three other men were  
badly injured. It was impossible to  
replace the funnel for twenty-four  
hours, and in the meantime they  
drifted, the storm at the same time in-  
creasing in severity. Three men were  
buried at sea when the storm abated.  
All the Sardinia's life boats except one  
were smashed by the heavy sea.

Congratulations.  
By Cable and Associated Press.]

PARIS, Jan. 24.—General Boulanger  
has sent a telegram to M. Paul De-  
roule and his colleagues in the Cham-  
ber of Deputies who led the recent re-  
volt in that body when M. Joffrin at-  
tempted to speak, congratulating them  
upon showing themselves to be the  
real defenders of universal suffrage.  
M. Martineau, a member of the Cham-  
ber of Deputies, who recently seceded  
from the Boulangerists held here last  
night. He was immediately attacked,  
kicked, cuffed and spit upon and com-  
pelled to sign a resignation of his seat  
in the Chamber.

A National Defense Movement.  
By Cable and Associated Press.]

LONDON, Jan. 24.—A large meeting  
was held in Trinity Theater last night  
to start a fund for national defense.  
The Duke of Pomares presided. A  
committee of 120, consisting of leading  
citizens and military and naval officers,  
was appointed to solicit subscriptions  
to the fund. A number of speeches  
were made, in which England was  
bitterly assailed for the course she  
has followed in her dispute with Por-  
tugal, and the French and Spanish  
lauded for their sympathy with  
Portugal.

Ex-Senator Riddleberger Dead.

WINCHESTER, Va., Jan. 24.—Ex-  
Senator Riddleberger died at 2:30 this  
morning.

## Report From the Other Side

SACRAMENTO, Jan. 24.—It was ex-  
pected the blockade would be raised  
yesterday afternoon or last night at  
the furthest, but the wind increased in  
velocity, and the plows will be com-  
pelled to do their work over again—at  
least, over the road extending from  
Shady Run to Blue Canyon. The ro-  
tary was in the snow near Towle's last  
night.

The first-class passenger, west-  
bound, due here on the 18th inst.,  
which started for Sacramento from  
Blue Canyon night before last, has  
been compelled to return to the latter  
station, where it is stalled.

Sea-going Torpedo Boat.  
By Associated Press.]

BOSTON, R. I., Jan. 23.—The United  
States sea-going torpedo boat No. 1  
was successfully launched this morn-  
ing from the shipyard of the Herreshoff  
Manufacturing Company. The boat  
was christened "Cushing" by Miss  
Katherine Herreshoff, daughter of the  
President of the company. Steam was  
raised in thirty-two minutes, and the  
auxiliary machinery was started and  
the boat saluted herself with her own  
whistle.

Railroad Completed—Mr. Spur-  
geon's Gout.  
By Cable and Associated Press.]

LONDON, Jan. 24.—The Delagoa Bay  
Railroad has been completed to the  
frontier of Transvaal.

Advices from Mentone say there has  
been a further development of gout in  
the case of Mr. Spurgeon, and that he  
is now unable to leave that place.

Another Appointment.  
By Associated Press.]

WASHINGTON, Jan. 24.—Francis C.  
Hannon has been appointed store-  
keeper and gauger in the first district  
of California.

TELEGRAPHIC BREVITIES.

Bar silver, 97 3/4.

The selling clerk of B. P. Hutchin-  
son, a Chicago grain dealer, robbed  
him out of \$100,000.

C. P. Huntington was before the  
Senate Pacific Railroad Committee to-  
day, and his remarks before that body  
were substantially the same as those  
made before the House committee  
yesterday.

LOCAL INTELLIGENCE.

BREVITIES.

Two or three days more like to-day  
and yesterday and the snow would  
begin to look very sick. It has settled  
fully a foot within the past 20 hours.

Let us pray now for the storm to  
cease. Our prayers were answered in  
giving us the storm, but if it takes as  
long for the weather clerk to make up  
his mind to shut off steam as it did to  
turn it on, we will be hopelessly  
snowed under and smothered before  
it lets up.

The Latest About the Blockade.

The road is clear from this point to  
Cascade, and there is nothing to pre-  
vent the trains making good time when  
they do get through.

Mr. Mason of the Truckee Republi-  
can, who came from Truckee this af-  
ternoon, reports a fierce storm raging  
at all points from Blue Canyon east,  
and on the other side of that point rain  
is falling. He says the situation is  
worse, if anything, than it was yester-  
day, and that there is no telling when  
we will have a train.

The Ice Crop.

The ice men up the river are in bad  
luck. At Prosser Creek they have  
finally given up trying and quit in dis-  
gust. The Tahoe Ice Co., near  
Truckee, have about 75 men at work  
trying to keep their pond free from  
snow, and at Boca about the same con-  
dition of things exists. It seems to be  
hard labor lost to try to keep the snow  
shoveled off when it falls about as fast  
as a gang of men can handle it.

PERSONAL.

General Clarke is slowly recovering,  
but is still confined to his room at the  
Riverside Hotel.

H. A. Mason of the Truckee Republi-  
can came down out of twelve feet of  
snow on a train that arrived here this  
afternoon.

No Water Yet.

The Water Company have not yet  
succeeded in getting water through  
the Orr ditch and the town is still  
without that necessary fluid. It is ex-  
pected they will succeed in getting it  
through within the next twenty-four  
hours.

Relieved From Duty by Death.

The operator at Cascade died yester-  
day of pneumonia. Dr. Curless tried  
to get to him from Truckee, but had to  
give it up, after battling with the  
storm king for several hours. The  
poor fellow died alone and uncared  
for.

Out of Luck.

### Serious Shooting Affray.

SAN FRANCISCO, Jan. 24.—L. Brom-  
well, President of the California In-  
surance Union, was shot and probably  
mortally wounded in his office in this  
city this morning by G. C. Pratt, Gen-  
eral agent of the company.

They were seated near each other  
and were conversing, when Pratt drew  
a revolver and fired three times, all  
the shots taking effect in Bromwell's  
body.

The cause of the shooting is not  
known as Pratt, who was arrested, re-  
fused to talk.

Pratt held a consultation with his  
attorney at the City Prison shortly be-  
fore noon, and according to the state-  
ment made to his lawyers, the tragedy  
is the result of Bromwell's alleged con-  
duct towards the wife of Pratt.

Pratt recently returned from Japan,  
and upon his arrival in San Francisco  
found that his wife had lost her mind.  
She was in the charge of friends.  
Pratt contends that he discovered con-  
clusive facts showing that Bromwell  
had betrayed his wife.

Both he and Bromwell are men  
prominent in business and social life.  
Three shots struck Bromwell, one in  
the arm, one in the neck and one in  
the body. It is not yet known whether  
he will survive.

LATER.—Bromwell's wounds are not  
as serious as at first reported, and it is  
believed he will recover.

Decidedly Discouraging.

TRUCKEE, Cal., Jan. 24.—The situa-  
tion is becoming more serious every  
hour. It is snowing with increased  
violence. There is no likelihood of  
trains moving for several days. The  
rotary plow is still stuck below Blue  
Canyon. There is eight feet of snow  
on the track at Cascade. Provisions  
are running low here and there is much  
sickness.

ON THE OREGON LINE.

DELTA, Cal., Jan. 24.—From 7 to 11  
inches of snow fell last night, and it  
is still snowing. Three landslides have  
occurred near here, which will prevent  
the relief train from reaching the im-  
prisoned passengers at Sims, number-  
ing nearly 500. The situation is more  
serious than ever in consequence, and  
no safe conjecture can be made as to  
the time the trains can get through to  
Oregon.

What Goss-tp Did.

LAMAR, Mo., Jan. 24.—Joseph Gar-  
rett, deputy sheriff and jailor, shot  
himself through the heart yesterday.  
He left a wife and seven children.  
The only motive of his despondency  
was caused by unfounded rumors that  
he had connived at the recent escape  
of some prisoners.

from Wednesday's Truckee Republi-

Potatoes are getting scarce and there  
is only about two days' supply at the

from Reno. There is enough beef in  
town to last four or five days.

The youngest child of Joseph Mar-  
zen, Jr., died Wednesday evening.  
The blow will be a severe one to Mr.  
Marzen who is in Sacramento.

The delayed passengers are not at all  
pleased with our glorious climate of  
California. There have been numer-  
ous inquiries for our orange groves and  
beautiful flowers. There is no satisfy-  
ing some people.

## Not a Vegetarian.

They were dining rather elegantly  
at a table d'hote restaurant. Con-  
versation had been brisk through fish  
and soup, but was flagging a little  
when the waiter put down a platter  
of rare roast beef.

Miss Withers crooked her finger  
gently as she raised a glass of ice  
water to her lips.

"Are you a vegetarian, Mr. Jinken-  
son?" she asked, after an appealing  
sip.

"Hardly Miss Withers," said Mr.  
Jinkson, and he carefully wiped his  
mustache with the air of a man about  
to make a remark. "I have always  
had a leaning toward the Episcopal  
faith."

Free Trade and Protection.

The discussion of free trade and protection between the Rt. Hon. W. E. Gladstone of England and the Hon. James G. Blaine in the North American Review, received at this office this morning, is what might have been expected from two such minds. Speaking of the last Presidential election in this country, Mr. Gladstone says:

"But all the agencies in that great election have now done their work, and protection has obtained her victory. Be she the loveliest and most fruitful mother of nations, or be she an impostor and a swindler, distinguished from other swindlers mainly by the vast scale of her operations, she no longer stands within the august shadow of the election, and she must take her chances in the arena of discussion as a common combatant, entitled to free speech and to fair treatment, but to nothing more; so that the citizens of two countries, long friendly, and evidently destined to yet closer friendship, may more calmly and safely pursue an argument which, from either of the opposing points of view, has the most direct bearing on the wealth, comfort and well-being of the people on both sides of the water."

True, the subject is open to discussion and there is nothing for protection to lose in an open and free debate of the question. While Mr. Gladstone is a strong advocate of free trade, as viewed from an English standpoint he is entitled to a hearing, but experience has taught Americans that honest protection to honest labor is what the United States wants to build up her manufactures and keep labor up to a dignified standard and not allow it to drop to a degree below respectability, as it has in England. After all, labor is the wealth of any country, and if free trade is inaugurated it would drop in the scale to a point below where an intelligent workman could maintain and educate his family, and we want nothing of the kind in this country. Labor is respectable and should have every protection thrown around it that is possible.

Mr. Blaine opens his argument as follows: There can be no doubt that Mr. Gladstone is the most distinguished representative of the free-trade school of political economists. His address in Parliament on his celebrated budget, when Chancellor of the Exchequer in 1893, was declared by Lord John Russell "to contain the ablest exposition of the true principles of finance ever delivered by an English statesman." His illustrious character, his great ability, and his financial experience point to him as the leading defender of free trade, applied to the industrial system of Great Britain. Mr. Gladstone apologizes for his apparent interference with our affairs. He may be assured that apology is superfluous. Americans of all classes hold him in honor. Free-traders will rejoice in so eminent an advocate, and protectionists, always the representatives of liberality and progress, will be glad to hear his opinion upon a question of such transcontinental importance to the past, the present and the future Republic.

Mr. Blaine from an American standpoint has much the best of the discussion, and the subject has lost none of its interest by the handling it gets in the hands of these two great men.

While physicians may differ as to the exact nature of the disease which is giving the people of this community so much trouble at present, there is no room for doubt that it is unlike anything ever before known in this locality. During a residence of twenty-eight years on this side of the Sierras, we have never before known anything like the present amount of sickness during a stormy winter, but almost invariably our mild, open winters have been more unhealthy than the stormy ones.

The Chicago Journal says it is not surprising that Lord Salisbury smiles at the hot temper of Portugal. So anxious is he to divert public attention from the scandals in which so many of his fellow lords are concerned that he would welcome a war as a boon.

## A HEART CRUSHER.

Minna Irving Finally Captured.  
A few days ago Minna Irving, of "Haunted Heart" fame, was married to Mr. Hasbrouck Delamater, of West Point.

Minna was a pretty young poetess of Tarrytown and Mrs. Grundy says she has wrecked more hearts than any other female singer in America. "Minna is the most sentimental girl that ever lived," said a New York gentleman to an Omaha Republican reporter. "It is said when she wrote the famous 'Haunted Heart' poem she was madly in love with James Gordon Bennett, of the New York Herald, and that Bennett failed to succumb to her bewitching ways and the result was she poured her soul into a poem which the Century Magazine published. Palmer Bened et Wells, a love torn youth, was sent to the Auburn Penitentiary for threatening to fill the body of the poetess full of 32 cartridges. She announced in the Tarrytown Record her engagement to young Wells, and then threw him over. She announced to the world that he was a dangerous lunatic and succeeded in having him incarcerated in the Auburn Penitentiary. His term will expire about the first of February. She was figured a long time in the New York papers as a 'heart crusher' and a sweet singer. Her husband, I believe, is an instructor in the military school at West Point."

In this case, the new subscriber will also get a copy of the book with his year's subscription. RESTORED HER HEALTH.  
For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at my age, which is now seventy-five years.

The snow-bound passengers express surprise that C. J. Brookins is able to sell all kinds of the best stationery as cheaply as the same quality is retailed anywhere.

During the middle part of the day, J. J. Becker's Chicago Saloon is liberally patronized by people who want no better noon meal than he supplies to all patrons.

George Becker's Granite Saloon is the place to go for a daily hot soup lunch, Pacific or Fredericksburg beer, a good cigar and a glass of as fine wine as can be had in town.

The blockade between here and Blue Canyon does not interfere with C. A. Thurston's receipts of leading monthly and quarterly magazines which nearly all come from the East.

Nature in Convulsion

Is terrific. Volcanic eruptions, cyclones, earthquakes are awful and tremendously picturesque, but scarcely desirable to emulate in action and effect by the administration of remedies which produce convulsion and agony in the abnormal portion of the human frame. Such is the effect of the old fashioned violent purgatives happily falling more and more into disuse, and of which Hostetter's Stomach Bitters is the wholesome, pleasant and far more effective succedaneum. They wreaked the latest—the Bitters invigorates them. They left the bowels inactive, because incapacitated by enervating feebleness. The Bitters on the contrary, and because it enables not forces them to act—a vast and fortunate difference perpetuates the property and regularity. The liver is beneficially stimulated, as the kidneys also, are, by this medicine, which easily conquers, also, malaria, nervousness and rheumatism.

THE QUESTION SETTLED.

This is a faithful picture of the establishment of Thomas Price & Son, at 524 Sacramento St., S. F. As the leading chemists of the west, they were asked to settle the question as to what saraparilla was in fact purely vegetable. They present their report: "We have made careful chemical analyses of several well known brands of saraparilla, and have found them all with the single exception of Joy's to contain iodide of potassium. As a result we are enabled to pronounce Joy's to be the only purely vegetable saraparilla now on the market, which has come under our observation." Modern medicine has proven that all ordinary face eruptions are caused by indigestion and sluggish circulation, which call for vegetable alteratives, instead of mineral blood purifiers like iodide of potassium. Joy's Vegetable Saraparilla is the first to discard the old notions and proceed under the modern theory. Its cures are the talk of the hour.

Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alternative and Tonic. If you are afflicted with any disease of the Kidneys or Liver or Stomach, of long or short standing, or who surely find relief by the use of F. C. Richter's. Sold at 50c and \$1 per bottle at W. F. Pinner's drug store.

**The Pulpit and the Stage.**  
Rev. F. M. Shroul, pastor United Brethren Church, Blue Mountain, Kansas, says: "I fell it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 25 pounds in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all and cures where everything else fails. The greatest kindness I can do my many thousands and friends is to use them to try it. Free trial bottles at W. F. Pinner's drug store. Regular size 50c and \$1."

**Bucklen's Arnica Salve.**  
The best salve in the world for cuts, bruises, oozes, ulcers, salt rheum, fever sores, chapped hands, chubins, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Wm. Pinner.

Advice to Mothers.

Mrs. Winslow's SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

THE TRAINS.

Poor Prospects of Getting Them Through.

The Situation Altogether Decidedly Discouraging All Along the Line.

The situation on the mountains was worse this morning than ever. It was snowing and blowing fiercely all night, and drifted badly, filling the cuts that had already been cleared of snow and making it about impossible for the large force of men employed to make any progress whatever. From the present outlook it will be several days yet before they will be able to get a train through.

News from Cisco is that it is storming harder than ever and the outlook is very bad.

It is snowing and blowing at Truckee, Summit, Cisco, Kingsmont Gap and Blue Canyon. The Western Union Telegraph Company have but one wire between Summit and Cisco, and that is given up to the railroad so that they may move their plows and trains. All business for the West must therefore go by the way of Denning, N. M., and as this is the only outlet to the west, the wire is overcrowded and business is subject to delay.

The weather east of Reno as far as Ogden is generally cloudy, windy and warmer.

All trains on the V. & T. are abandoned, and the company is working to open the road between Gold Hill and Virginia. They will undoubtedly send a plow on this end of the road to-morrow.

It was raining this afternoon up as high as Blue Canyon, which was considered very favorable, and a south wind was blowing, thus rendering the snow less liable to drift. At 2 o'clock they were taking the steps off the coaches and sleepers of Train No. 4 so that they could follow the snow-plow.

The men shoveling snow are reported all sick or tired out, and it is morally certain that there will be no train to-day, and if they get through to-morrow they will be in big luck.

The special cattle train that left here last night after cattle for Russell & Bradley came to grief at the Asylum by running into a drift and several cars left the rail, which necessitated the wrecking train coming from Truckee to get them on.

The wrecker was sent to the scene about 2 o'clock this afternoon and expected to have the track clear by night.

UNREASONABLE.

Some of the snow-bound passengers are losing their heads.

Some of the snow-bound passengers detained here are losing their heads and doing a good deal of fault-finding at the treatment they are receiving at the hands of the railroad company. They held an indignation meeting at the depot this morning and demanded that J. C. Stubbs should provide transportation for them, either east or west. It is needless to say that Mr. Stubbs did not, for the reason that he could not comply with the request. So long as the company continues to work night and day to raise the blockade it is useless for passengers to show their ingratitude by fault-finding. It works as great a hardship upon the company as it does to any individual, and it is useless to kick. Take the world easy, fellow-citizens, and thank your stars that you are not held in a worse place than Reno.

A NICE WAD.

How a Passenger Became the Fast Friend of John Sunderland.

One of the snow-bound passengers paid a visit to John Sunderland's clothing emporium yesterday and purchased a new suit of clothes. He changed the things from his old coat pocket to that of the new and went away. Afterwards concluding to have his new coat sewed, he took it back to Sunderland's and left it, when the clerk took it over to Russell's. About a half an hour afterwards the traveler came back to Sunderland's, and said he had left \$120 in bills in the coat pocket, which were promptly produced, Sunderland having found the "wad," and the passenger went away swearing by John.

Paper in Science.

The GAZETTE will try hard not to miss an issue, but paper is becoming a scarce article of commerce. Our neighbor across the way run out, and as it is becoming to assist in every way possible, we felt it incumbent upon ourselves to divide, and so long as it lasts the Journal and the Gazette will be issued on time, but when it is gone—Oh, well, the Lord will provide, so we won't worry. The GAZETTE has cut off all its exchanges in order to make what we have go as far as possible.

No Far All Right.

A. G. Fletcher receives word from a band of 11,000 sheep, in which he is interested, which are located about nine miles west of Rye Patch, that so far they are all right and doing well.

D. C. Wheeler.

D. C. Wheeler hears that his large band of sheep in the vicinity of Mud Lake are doing well and will pull through in good shape if no more snow falls.

Ladies' Guild.

A regular meeting of the Ladies' Guild of the Episcopal Church will be held at the School for Girls on Saturday next, the 25th inst. A conveyance to start from the Rectory will be provided. A full attendance is particularly desirable.

Dangerously Ill.

Claude Jaques is dangerously ill with pneumonia. The GAZETTE sincerely hopes he will pull through, for he is too good a boy to lose.

Good News.

Reports from the Smoke Creek desert are that the snow is nearly all gone and that cattle in the vicinity of Round Hole are doing well.

BREVITIES.

Local and General Intelligence.

It is not safe for trains in any direction.

Still the situation on the mountains remains unchanged.

Joseph Jefferson received \$12,000 for his autobiography.

There has been no train over the V. & T. since Wednesday.

Alphonse Daudet is at work upon a new novel, "The Caravan," which will appear this year.

One of the leading members of the Maryland Senate is Mr. Poe, a relative of the late Edgar Allan Poe.

A falling barometer this afternoon creates grave apprehensions relative to the length of the snow blockade.

The snow on the mountains east of Reno has been nearly all blown off the ridges and deposited in the canyons.

The 500 passengers detained here are beginning to get very tired. The detention works a great hardship on many of them.

There will be a conveyance at the rectory to take all who desire to attend the Guild meeting to-morrow to and from their homes.

Lieutenant James D. Gay, who was the first man to bring a mail north from Washington at the outbreak of the rebellion, has petitioned Congress for a pension.

Captain Cook, the recently elected doorkeeper of the Kentucky House of Representatives, is 33 years old, 7 feet in height, weighs 260 pounds and wears No. 13 shoes.

It is understood that the late Heister Stephens will to his wife all his property, both personal and real. The value of the property was not learned, but it is thought to be about \$15,000.

A penny famine is threatened at the West. Since it was ascertained that a cent could be usefully employed at church collections, the penny piece has suddenly become a great favorite out there.

Don't commit suicide! If you have dyspepsia, with headache, heartburn, distress in the stomach, no appetite, and are all worn out—but take Hood's Sarsaparilla, it creates an appetite, and gently regulates the digestion. Sold by druggists.

An Excellent Suggestion.

Col. R. H. Lindsay makes an excellent suggestion to the Commissioners, and that is that they cause a survey to be made and ascertain the cost of opening the channel of the river in the canyon east of town so that the water can escape when the snow goes off. The cost of such a survey would be very trifling and Col. Lindsay thinks the work could be done for \$2,000, thereby insuring safety to much valuable property below town in case of a freshet.

A Pad Case.

Major Little, a snow-bound passenger from Chicago, has been here for a week, and as he was called for San Diego by a telegram stating that his son was dying, it seems particularly hard in his case. He received word from his son this morning that he was just alive.

PERSONAL.

Colonel Fry and family of San Francisco are among the west-bound passengers here.

James Stanaway was taken very ill last night with the same complaint with which so many have been suffering of late.

Valuable Paintings.

Miss Landon, who recently died at the old-fashioned seat of Tachbrook, Warwickshire, England, was a niece of the poet Walter Savage Landor. Her house was filled with curious old Byzantine and pre-Raphaelite pictures which Landor bought in Italy before the invasion of that country by Napoleon I.

NEXT DOOR TO W. O. H. MARTINS'.

THE GIRL WHO HINTS.

A Lecture to a Few of Reno's Pretty Girls.

Naturally you didn't ask him, and you would be very indignant indeed if anybody suggested that you had forced the poor fellow into bringing you the flowers or candy, or in taking you to the concert. No, you didn't ask him, but you couldn't have been any clearer about it than you were when you looked into his eyes in your most beseeching way and told him how anxious you were to hear the great violinist, how sweet you thought violets, and how you did wish for a pound of chocolate. He didn't want to get any of these; he hadn't the money to spend for them. He doesn't get a very large salary, and is trying to keep himself out of debt, and yet, because he is generous and can't resist a pretty girl, you have forced him into a dishonest position. That's it, in plain English.

When the end of the week comes and he is ten dollars short in his money, a little bit on his board bill must wait, his landlady cannot be attended to, and the money that should go home must be apologized for. This is the first step toward not doing his duty, and you have made him take it. The American man is generous, and when he has the money he will invite you to his home without your suggesting to him what you like, or what you think he ought to do. Besides the harm you do him, you are making yourself vulgar—he has a perfect right to go away and say that he doesn't want to visit at your house any more, because you hint and hint until he has to take you to some place of amusements, or make you presents and that, for his part, he cannot afford it.

Continue as you are doing and after while you will get the reputation among men of being a very undesirable girl to know, and certainly no man who has heard of your conduct will "get things out of men" will want to ask you to be his wife. Better stay at home forever than go self-invited; better never taste candy than eat that obtained at the high cost of self-respect; better never smell a violet, or a rose, than forget in your search for them, that it is the modesty of the violet and the dignity of the rose that makes them pre-eminent among the flowers.

**Chance for an American Heiress.**  
Baron Joellin C. Schellha, an aristocratic German whose father is said to be a member of the Reichstag, was arrested in a New York billiard room recently. The charge against him was failure to liquidate a fat board bill. The sooner Barons, Princes and foreign snobs generally learn that a man in this country must pay for what he eats the safer will their trips to the United States become. American landlors are not in the habit of entertaining even titled guests for nothing.

**Marshal McMahon's Book.**  
Old Marshal McMahon, ex-President of France, has completed his memoirs, but they will not be given to the public. He intends to have only six copies printed—one for himself, one for his wife, one for each of his three sons and one for his daughter. He has received flattering offers from publishers, but refuses to allow his work to receive general circulation.

**An Old Volume.**  
An important rumor is that Bryennios, Archbishop of Nicodemis, has found in a Turkish library at Damascus a manuscript of the New Testament dating from about the middle of the fourth century. It is a discovery of importance equal to that of the Codex Aleph.

**Changed to a Baritone.**  
A tenor singer in Cologne named Eichorn, was obliged to undergo a throat operation, and while it was successful, it was found upon his recovery that his voice had changed to a baritone.

**Expected to be Rescued.**  
Fooled With the Rope a Little Too Long.  
At Charlotte, N. C., on the 18th inst., William Bowers accidentally committed suicide. His domestic relations were not pleasant, and of late he frequently made pretenses of hanging himself, always, however, taking the precaution to tell his relations about it, so they would prevent the hanging. One day he was found in the buggy shed with a rope around his neck and his toes scratching the ground, trying to get a foothold. He was cut down.

On the above date he fooled with the rope a little too long. He told his family he was going to hang himself, and went out into the blacksmith shop, where he mounted a grindstone frame, and after fastening one end of the rope to a joist, he adjusted the other end about his neck and swung off. When his relatives, who had not put much faith in his threats, arrived on the scene he was dead.

**Breach of Promise.**  
A Walter Girl Recovers Five Thousand Dollars.  
Susceptible juries will presumably continue giving pecuniary balm to disappointed females in breach of promise suits to the end of time. Miss Dora Keim was until recently a waitress in a Brooklyn boarding-house. All went well until William N. Peak, a wealthy wall-paper manufacturer, became engaged to the deft and skillful manner in which Dora along coffee and pie at him from a distance, and then complications arose. He made violent love to the pretty waitress, but failed to carry out the promise of marriage she claims he made to her. She consulted a lawyer, temporarily quit distributing provender in the boarding-house, and sued Mr. Peak for \$10,000. The jury promptly awarded her \$5,000, and the court tacked on an additional per cent. for lawyers' fees.

**Athletic Exercise.**  
For Ladies Who Want Good Health.  
An eastern exchange says it is not strange that the ladies should have developed a taste for the formation of athletic clubs, where, in discreet seclusion, they may swing upon the giddy trapeze, pull ropes, and fence and even spar with a view to extra development of that health without which there can be no real beauty.

Has not every lady in the land her ears filled every hour of the day with talk of athletic sports by her father, brother, sweetheart or husband, until she has almost begun to believe that baseball is a higher art than sculpture, and that the boating champion is a greater man than the scholar, the poet or the successful soldier?

The craze for athletics among ladies will effect one good: it will make the race more robust—will put more joy into mere living. It will teach the ladies to discard many false notions about dress—many rancies of fashion which mar their beauty because they are contrary to sound hygiene.

**Supplied With Dolls.**  
The Princess Haile, the youngest daughter of the Sultan of Turkey, has received from the Emperor and Empress of Germany a fine collection of dolls, with complete sets of dresses and furniture.
